This "handbook" is for those who live in states where aid in dying is prohibited. It is for those who want help in
understanding the ethical arguments surrounding physician assisted death. It is especially for those who
continue to argue for the criminalization of aid in dying. It is the ultimate argument because, if these
considerations do not demonstrate that aid in dying should be allowed, it cannot be established that aid in dying
should be permitted.

Byron Chell has provided us with a succinct yet complete treatise on Physician Aid in Dying. His understanding
of the ethics of a death with dignity, patient autonomy, and professional integrity is vast, yet he is able, in this
short book, to clearly make the case that there is no basis for the criminalization for the prevention of suffering
in the competent patient who has an incurable condition.

As the Supreme Court's deadline was not met, in the absence of legislation physician-assisted dying is governed
by the Supreme Court's ruling, supplemented by guidelines from provincial and territorial medical regulatory
bodies.⁷ Assisted dying legislation has been in force in the province of Quebec ...

I found this article fascinating in that explores the paradoxical inevitability that doctors, who spend their lives
trying to prevent others from dying, must ultimately themselves face death in the same way their patients do.
