Death of the Family is a Bat-family crossover arc which deals with the reappearance of The Joker in Gotham City and his quest to get revenge on all of the members individually and then finally as a whole or rather the 'family'. It is a play on words to the 1988 storyline 'Death of the Family' where Jason Todd was famously killed by the Joker although the story is nothing alike. The main plot belongs to Batman with the other characters having tie-ins.
