Chardonnay: A Complete Guide to the Grape and the Wines it Produces (Mitchell Beazley Wine Made Easy)

This book is part of the Mitchell Beazley series of little books. I know it's a pretty cheap book but I would still suggest skipping it. It doesn't really tell you about Chardonnay as much as it describes all known growing regions. That doesn't really give me useful information to really learn about the grape itself. There's little information on aromas and body of this particular variety.
