Bill Zoellick is currently a partner in and founder of Fastwater LLP, a consultancy focusing on helping companies build effective web businesses.

At the outset, I saw that the issues that this book examines--copyright, patent law, privacy, and electronic identity--would have big impacts on the nature of the Web and on the shape of Web business. Naively, I hoped to uncover policy programs and proposals that were as large and striking as the issues themselves.

CyberRegs brings you up to speed on current developments in patent, copyright, digital signature, and privacy policies. Taking an even-handed approach to the debate between greater and lesser control of the Internet, this book provides fascinating background on recent Web legislation. It discusses in depth the many complex policy issues now ...

CyberRegs brings you up to speed on current developments in patent, copyright, digital signature, and privacy policies. Taking an even-handed approach to the debate between greater and lesser control of the Internet, this book provides fascinating background on recent Web legislation. It discusses in depth the many complex policy issues now being hotly debated, and speculates on possible ...

Description. Government regulation and new legislation, coupled with technology, have the potential to dramatically change the nature of the web; this thought-provoking book explains what regulation may mean to organizations and the web as we know it.
