Graphing from Function Tables. Use a function table to graph a line. This worksheet presents a completed function table and a blank graph. Since the function table is filled with values, there are no computations for the student to perform.

Using the information from the table, graph the line of the equations on the coordinate plane below. Be sure to plot all points from the table and draw a line connecting the points. Be sure to plot all points from the table and draw a line connecting the points.
