Only use the Barron's exams if you have used all of the practice tests from the SAT Blue Book. This book recycles material from the version of the SAT that went into the garbage bin half a decade ago; should you unfortunately buy this book, please recycle it into the nearest recycling bin.

This is the only book I used to prepare for the GREs, but I didn't try any others. I bought this one because it had the best reviews out of any that I found on Amazon, and it didn't disappoint me.
