The Special Kids in School Series is a must-have for every counselor, teacher, school nurse, parent, or caregiver. This beautifully illustrated and fun-to-read storybook simplifies and normalizes complicated the childhood condition of Down Syndrome.

Taking Down Syndrome to School by Jenna Glatzer is the perfect informational book that can be used to educate children about down syndrome. I believe this is a powerful book because, by writing in the child's point of view, Glatzer shows the reader how students with down syndrome feel when they are mistreated and she helps the reader understand that students with down syndrome are actually a lot like everyone else.
