I have followed the work of Jack Kirby for years and thought of him only in terms of his career with Marvel Comics, and somewhat with his brief work for DC Comics. But I never realized that those times weren't the beginning of his story. Enter Joe Simon and the Simon and Kirby Studio.

The Simon and Kirby Studio was the partnership formed by comic-book creators Joe Simon and Jack Kirby, beginning in the late 1930s when they met at the Victor Fox's comic company.

Simon, no slouch at the art desk himself, had a head for business, and helped the studio bearing his and Kirby's name become one of the premiere producers of content for America's comic book industry.
